I wanted to express our sincere thanks to Paul Figueroa and Peace Enforcement LLC.

We had some serious gossiping problems, like most organizations do. One location was presenting some significant challenges spreading rumors not only about staff but about our organization as a whole. It not only was affecting our staff's morale, their performance and productivity were impaired because of the gossiping.

We brought Paul in to help solve this problem and he did a Gossip Awareness training for our managers. We were expecting a mere increase in awareness about what gossiping is. The results have been astonishing.

Not only has the gossip reduced DRAMATICALLY throughout our organization, people that were unable to attend the training have changed their behavior. Our staff now is asking questions of the right people and our organization is on the mend.

We are thoroughly pleased with the training. It has worked wonders in our organization.

I would highly recommend Paul to ANY organization that has a problem with gossip and wants to correct the problem, increase morale and increase productivity.

Respectfully,

Cathy Wamsley
Executive Director
Umatilla Morrow Head Start, Inc.
