To Whom It May Concern:

Paul Figueroa brought the Peace Enforcement Program to our K-12 school. He made a tremendous impact on our kids, especially our middle school children. The referrals for harassment and bullying were cut in half, and those that were referred were less severe than in the past!

Paul connected with all of our kids. I highly recommend his program to schools that are struggling with student misbehavior, lack of respect, harassment, and bullying.

Brian Freeman, Principal
