His Mission: To Prevent Violence in Homes, Communities, Schools and The Workplace

In-Depth Programs

Helping kids move through most any challenge facing them

Designed to help children at different life stages deal with unique issues and challenges, these programs can also be provided as trainings for educators, parents, or mentors. Each program provides participants with a supportive and caring environment, and gives them tools to lead healthy, safe and vibrant lives – and to support others in doing the same.

Peace Enforcement™ Violence Prevention – Self Esteem Program

A year-long program with additional support for kids in need

A powerful and effective year-long program implemented in any school. The sixteen class lessons are followed up with individual mentoring or afterschool workshops for the young people that can use it most. The Peace Enforcement™ Curriculum is used throughout the year.

PROVEN EFFECTIVE

Reducing conflict in young people's lives by over 50%!

"Break Through"

A customizable program that helps young people overcome limiting beliefs and fears

During this experience, students are taught highly effective techniques from The Peace Enforcement™ Curriculum and helped to "Break Through" and overcome limiting beliefs and fears. This profound workshop has a long lasting effect. It can be implemented for a weekend, after school, or over a series of shorter visits.

One youngster shared that thanks to the program:

"I feel loved!"

The PeaceMaker Program

An opportunity for young adults to learn the essentials of handling and resolving conflict peacefully, and become trained to pass their knowledge onto others

A group of young people are trained in the Peace Enforcement™ Curriculum and are also taught Paul's effective approaches using interactive theatre. Once trained, the new "PeaceMakers" may return to their student body and provide single or small series of workshops to their student body. They may also do assemblies on most any topic for their feeder schools - and their community as well.

LIFE CHANGING!

"Break Through" Day Camps

Experiences designed with the same principles and goals of our highly effective "Break Through" program. Customizable to any age.

Parent Support Program

A program that takes parents through the entire Peace Enforcement™ Curriculum.

Parents share their own struggles and receive insightful and effective solutions and support. Not only do parents learn effective strategies for dealing with conflict, anger and violence in their own lives, they also learn loving ways to modify children's behavior, and insight into setting safe and effective structure with children.

Within the first two hours, one participant shared:

"This class has changed my life!"
